Academic Year Opening Ceremony of the PhD program in Experimental Medicine

MAURO GIACCA

April 21st, 2022 - 4.00 PM
Aula Magna LITA Segrate

A path to discovery - Tips for a successful scientific career

Mauro Giacca, MD PhD, is Head of the School of Cardiovascular Medicine&Sciences, King's College London. Until 2019, he has served as Director-General of ICGEB, a United Nations research organization.

He is an expert in gene and RNA therapy for cardiovascular disorders. His research is funded internationally, including two consecutive ERC Advanced grants, and has led to over 380 publications. He has recently founded two startups to develop novel biologics for cardiac protection and regeneration.

Prof Mauro Giacca is a Fellow of the Academy of Medical Sciences, UK and serves as the President of the International Society for Heart Research- European Section.
