

Letizia Russo

letizia.russo@unimi.it

PhD student of the 39th cycle.

ORCID: 0009-0008-6274-5944

Graduated in Medical Biotechnology in 2023 at the Università del Piemonte Orientale, Letizia is currently enrolled in the PhD Program in Experimental Medicine of the University of Milan. Her project is focused on the investigation of a novel role for MeCP2 in the regulation of brain aging in Rett Syndrome mice model.
