# Rebecca Polidori

rebecca.polidori@unimi.it

PhD Student of the 39th cycle

ORCID: 0000-0003-3016-7613

After graduating in Biomedical Engineering in 2021 at Politecnico di Milano, she worked as a research fellow and imaging analyst at Humanitas Research Hospital. She is currently enrolled in the PhD Program in Experimental Medicine at UniMi and she is working in the laboratory of Prof. Federica Marchesi. Her project is focused on the application of artificial intelligence tools for the analysis of tumor tissues to study the cellular composition and the spatial organization of the tumor microenvironment.
