

Anna Leoni

anna.leoni1@unimi.it

PhD student of the XL cycle

ORCID: 0009-0001-9365-3937

After obtaining her Master Degree in Medical Biotechnology and Molecular Medicine at the University of Milan in 2024, Anna is currently enrolled in the PhD program in Experimental Medicine in the laboratory of Professor Massimiliano Pagani.

Her PhD project is focused on exploring the molecular mechanisms underlying the pathogenesis of Cerebral Cavernous Malformations (CCM), a rare genetic neurovascular disease, with the ultimate goal to define and test potential therapeutic avenues on in vitro and in vivo models of the disease.
