

Marika Viatore

marika.viatore@unimi.it

PhD Student of the XL cycle

ORCID: 0000-0001-9554-6468

After graduating in Medical Biotechnology and Molecular Medicine at University of Milan in 2022, she worked as research fellow at Humanitas Research Hospital.

She is currently enrolled in the XL cycle of the PhD Program in Experimental Medicine in the laboratory of Prof. Federica Marchesi.

Her project aims to identify and characterize immune cells profiles by exploiting multidimensional tissue analysis in several pathological settings such as pancreatic cancer.
