

Oriola Gjana

PhD student of the XLI cycle
ORCID: 0009-0000-8611-0523

After graduating in Medical Biotechnology and Molecular Medicine in 2024 at the University of Milan, Oriola continued as a research fellow in the Pharmacology Laboratory under the supervision of Professor Clara De Palma. She is now enrolled in the international PhD program in Experimental Medicine in the same laboratory.

Her project focuses on the development of a combinational approach, based on both gene therapy and pharmacological treatment, in order to tackle Duchenne Muscular Dystrophy (DMD) through the implementation of conventional and alternative disease models.
